

High Energy By-pass Triglyceride

# MOOFAT™

Increase Milk Yield

Increase Milk Fat

Improve Body Condition Score

Enhance Fertility

**MOOFAT™** is made of pure trans-fat free triglyceride derived from refined fats for providing high energy to fresh cows and peak production cows to increase milk yield and milk fat.

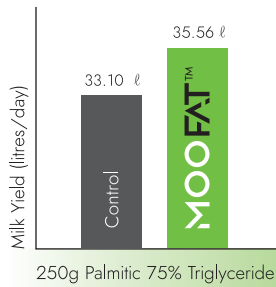

**MOOFAT™** also improves fertility.

**MOOFAT™ TOP** has Palmitic Triglyceride 75% min; Refined Fats 99.5% min

**MOOFAT™ TOTAL** has Palmitic Triglyceride 70% min; Refined Fats 99.5% min

**MOOFAT™ TARGET** has Palmitic Triglyceride 55% min; Refined Fats 99.5% min

## INCREASE MILK YIELD

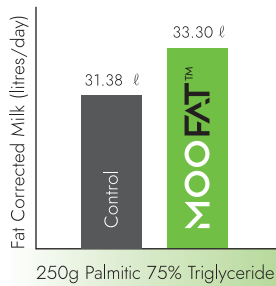

## WHY ARE WE GOOD NUTRITION

We work with nutritionists – your current feed formula matters

We use nutrition in holistic way to add to farm's yield, quality and profit

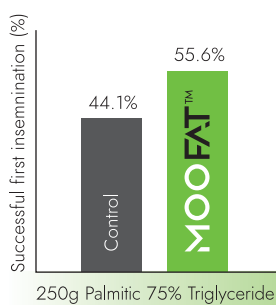

We use health first basis, as growth and yield will increase with good health

## INCREASE MILK FAT

Reichetanz et al (2010), Investigations with dairy cows of the effects of calcium salts or prilled fat on milk yield composition with emphasis on trans-fatty acid Proc. Soc. Nutr. Physiol., 19

## INCREASE COW FERTILITY

Engelhard T & J Groenwold, FETTPULVER MIT VIEL ENERGIE (2005); Bauernzeitung, 26. Woche, 38-39

NUTRITION	TOP	TOTAL	TARGET
<b>FATTY ACID PROFILE</b>			
C16 SFA	75	70	55
C18 SFA	5	5	20
MUFA	12	15	15
PUFA	3	5	5
<b>ENERGY VALUES KCAL/KG</b>			
GE	9150	9100	9100
NE	6350	6300	6150

DOSE	PACKING	HANDLING
Cows (5500-8500kg/year)	25kg bags	Powder
Early Lactation 450-600g/animal/day	Palletised bags	
Mid Lactation 250-450g/animal/day	650kg bulk bags	
Late Lactation 150-250g/animal/day
